WAHAB KHAN

Full Stack Software Engineer | AI Products & SaaS

Karachi, Pakistan | +92 331 3507810 | kwahab789@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 4 years of software development experience, including 1.5 years of hands-on Node.js backend development. Experienced in full stack web application development, frontend development, backend development, SaaS product development, RESTful API development and integration, and production deployment using React.js, Next.js, JavaScript, TypeScript, and Node.js. Builds AI-powered products with OpenAI APIs, Generative AI, LLM integrations, AI agents, Vapi, and vector search, with end-to-end ownership across responsive user interfaces, server-side logic, third-party API integrations, debugging, maintenance, and product delivery.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript
Frontend	React.js, Next.js, Tailwind CSS, Bootstrap, Sass, Modern CSS, Responsive Web Design
Backend & APIs	Node.js, RESTful APIs, Server-Side Development, API Integration, Third-Party Integrations
AI & LLM	OpenAI APIs, Generative AI, LLM Integrations, AI Agents, Agentic Workflows, Vapi, Vector Search
State Management	Redux, Context API
Cloud & Dev Tools	Vercel, Git, GitHub, GitLab, Bitbucket, Jira, WordPress, Cursor, Codex, Claude, Augment, V0 by Vercel

PROFESSIONAL EXPERIENCE

Black Lion — **Aug 2023 - Present**

Full Stack Software Engineer

- Develop, test, deploy, and maintain full-stack AI-powered SaaS web applications using React.js, Next.js, JavaScript, TypeScript, and Node.js, contributing across frontend development, backend development, RESTful APIs, server-side logic, and production workflows.
- Apply 1.5 years of Node.js backend development experience to build server-side functionality, REST API integrations, third-party service integrations, and data-driven application workflows for production SaaS products.
- Integrate Generative AI and AI engineering capabilities including OpenAI APIs, LLM integrations, AI agents, agentic workflows, Vapi, and vector search to automate business processes and deliver AI-powered product features.
- Build responsive web applications using React.js and Next.js, implement state management with Redux and Context API, connect frontend interfaces to backend services, and ensure accessibility and cross-browser compatibility.
- Collaborate with product and business stakeholders throughout the software development lifecycle to translate requirements into production-ready features, troubleshoot production issues, maintain legacy systems, and ship backward-compatible releases.

Online Care — **Jun 2023 - Aug 2023**

Web Developer

- Built and maintained responsive web applications using HTML5, CSS3, and JavaScript, delivering frontend features, API-connected user experiences, debugging, testing, and production issue resolution.

XCL Technologies — **Sep 2021 - Aug 2023**

Web Developer

- Designed, developed, tested, and maintained responsive websites for local and international clients, focusing on clean code, web application development, usability, performance, and cross-browser compatibility.

SELECTED AI & FULL STACK PROJECTS

Estima8 AI Quoting Platform | estima8.ai

- Built an AI-powered SaaS quoting platform using Next.js, React.js, REST APIs, AI integrations, and PrintSmith Vision workflows, automating commercial print estimate generation and reducing manual quoting time from hours to minutes.

NALA Agentic AI Platform | nalabot.com

- Developed an agentic AI SaaS platform with specialized AI agents for A&R, distribution, management, contract analysis, and artist outreach, combining full-stack development, REST API integrations, Generative AI, and automated LLM-driven workflows.

Music Mandi Digital Distribution Platform | musicmandi.com

- Developed a full-stack digital music distribution platform for South Asian artists using React.js, Next.js, Tailwind CSS, analytics dashboards, and REST API integrations, supporting digital distribution, reporting, and royalty visibility.

EDUCATION

Bachelor of Information Technology | Mehran University of Engineering and Technology, Jamshoro — **2018 - 2022**
